CINXI™ | MIDWAY

TECHNICAL SPECIFICATIONS

2U Form Factor
(Based on Dell PE 2950)

1 Xeon Quad Core Processor

32 GB RAM

PERC 6 RAID Controller

Six 1 TB Hot-Swappable SATA Discs

RAID 5

Redundant Hot-Swappable Power Supplies

2 NIC Cards

HIGH TOWER

APPLIANCE OVERVIEW

Cinxi Midway is a 2U rack-mountable appliance designed for medium to large environments with higher volume data collection, correlation, and storage requirements. Midway appliances can be used as stand-alone solutions, as the centralized log storage and management component in a distributed architecture, or as regional solutions that roll-up to Cinxi Enterprise appliances.

KEY CAPABILITIES

▸ Service Oriented Architecture allows greater solution flexibility and higher reliability

▸ All-inclusive pricing; no per-device or per-user licensing

▸ Support for up to 69,312 EPS

▸ MetaRules™ cross-device real-time event correlation, High Tower's proprietary behavior-based analytics engine

▸ 6 TB of onboard storage

▸ Compatible with Cinxi Vault for up to 45 TB additional near-line storage for long term "live" data retention

▸ Hardware-based AES encryption of all data at rest

▸ High-availability with RAID 5 data configurations and redundant power supplies

▸ Compatible with Cinxi Node for secure data collection from remote locations

▸ Master console for centralized management

▸ Hundreds of compliance reports offering comprehensive coverage for PCI, SOX, HIPAA, GLBA, ISO, and more

▸ Auto-updating software

▸ Easiest SIEM system to deploy and use

▸ Intuitive Graphical User Interface for all operations and management
